Chiangmai, Thailand

TECHNICAL SKILLS

Languages
TypeScript, Go, C#, JavaScript, SQL, C++

Backend
NestJS, Node.js, Express, Fastify, ASP.NET Core, Go microservices, WebSocket

Frontend
Next.js, Angular, Vue.js, Electron, Tailwind, SCSS

Data & queues
PostgreSQL, MySQL, SQL Server, Prisma, Redis, BullMQ, AWS SQS

Platform
Dokploy, Vercel, Docker, CI/CD

Architecture
Microservices, Hexagonal, DDD, TDD, Feature-Sliced Design, SDLC

AI tooling
Claude Code, Codex, sub-agents, custom agents & skills

EDUCATION

B.Eng. Electronic & Telecommunication Engineering
King Mongkut's University of Technology Thonburi (KMUTT) · 2018–2022

STRENGTHS

Technical leadership · Complex problem solving · Cross-team communication · Adaptability

PROFILE

Full-stack engineer with 4+ years building production systems across agriculture, logistics and property tech — from Go and NestJS microservices to Next.js and Angular front ends. Comfortable owning a feature end to end: data model, queue-driven background work, API, UI and deployment. Currently shipping enterprise tooling at AXONS while running three products of my own in the wild.

EXPERIENCE

Full Stack Developer · AXONS
Aug 2023 – Present

- Build and maintain internal platform services in Go and NestJS on a microservice architecture, integrating over AWS SQS and WebSocket for real-time and asynchronous workloads.
- Design PostgreSQL and MySQL schemas and the Next.js interfaces on top of them, taking features from spec to release.
- Introduced Redis and BullMQ for queued background jobs, moving long-running work off the request path.

Full Stack Developer · Logicton Co., Ltd.
Sep 2022 – Aug 2023

- Deliver logistics tooling across an ASP.NET Core / C# backend and NestJS + Fastify services, with Vue.js front ends on SQL Server.
- Own feature delivery end to end, including deployment via Dokploy and Vercel.

Front-End Developer · Karnkanok Property
Jun 2022 – Sep 2022

- Designed and built internal web tools in Angular with HTML and SCSS for the property sales team.

Software Engineer Intern · Toyota Tsusho Denso Electronics (Thailand)
Jun – Nov 2021

- Built factory-floor desktop tooling with Electron, Angular, NestJS and MySQL.

SELECTED PRODUCTS

TunderPOS tunderpos.com
Point-of-sale platform for restaurants, cafés and grocery stores: online ordering, LINE LIFF membership, stock control and staff management. Full owner of architecture, delivery and hosting.

TunderCoach AI LINE
AI running coach that generates individual training plans toward a goal, reviews each session and weekly progress, and adapts the plan. Integrated with Strava.

BabyBeat LINE
Newborn-care assistant bot that logs feeding, sleep and diaper events and turns them into a summary parents can bring to a paediatrician.
